

# I-10 Broadway Curve Improvement Project

Loop 202 to Interstate 17

July 19, 2021

 SHARE

## Weekend closure marks the start of I-10 Broadway Curve Improvement Project

The first phase of work for the Arizona Department of Transportation's long-awaited Interstate 10 Broadway Curve Improvement Project is set to begin late Friday, July 23, with a weekend closure of westbound I-10. This marks the first of at least eight weekend highway closures planned for I-10 or US 60 Superstition Freeway this summer.

ADOT advises drivers to expect delays and use alternate routes while westbound I-10 is closed between Loop 202 and US 60 from 10 p.m. Friday to 4 a.m. Monday, July 26. Drivers can use the eastbound Loop 202 Santan Freeway to the northbound Loop 101 Price Freeway as a detour. Drivers bound for the West Valley can use the Loop 202 South Mountain Freeway to bypass the work zone and connect with I-10 at 59th Avenue.

The westbound I-10 on-ramps at Loop 202, Chandler Boulevard, Ray, Warner and Elliot roads will also be closed. Drivers can use Baseline Road to access westbound I-10 while the ramp closures are in place.

ADOT anticipates this first phase of the project will continue through early September. Crews are removing the asphalt from I-10 in the project boundaries between Loop 202 and Interstate 17, and from US 60 at I-10 where ADOT will improve the interchange. The driving surfaces will be restored after construction is completed in late 2024.

Each of this summer's weekend closures will occur in segments ranging from one to seven miles. Only one direction of travel - eastbound or westbound - will be affected at a time.

The second of the summer weekend closures is scheduled to occur on eastbound I-10 between US 60 and Loop 202 from 10 p.m. Friday, July 30, through 4 a.m. Monday, Aug. 2. Information will be available on the [project website](#) and the project mobile app, [The Curve](#), which is free to download for iPhone and Android users.

### About the Project

*The I-10 Broadway Curve Improvement Project is ADOT's largest urban freeway reconstruction project in Maricopa County. Work will occur on 11 miles of east and westbound I-10 between Loop*

202 and I-17, and includes the “Broadway Curve” between Baseline Road and 40th Street. Additional work will occur on east- and westbound US 60 between I-10 and Hardy Drive and on north- and southbound State Route 143 between I-10 and the southern end of the SR 143 bridge over the Salt River. The project is funded in part by a dedicated, half-cent sales tax approved by Maricopa County voters in 2004.

Schedules are subject to change based on weather and other unforeseen factors. Stay #AheadOfTheCurve! For more information, call the Bilingual Project Hotline at 602.501.5505 or email [Info@i10BroadwayCurve.com](mailto:Info@i10BroadwayCurve.com).
