

## January 2022

Happy New Year!

As 2022 began, Interstate 10 Broadway Curve Improvement Project construction activities really ramped up.

The Broadway Curve Constructors (BCC) continued installing the drilled-shaft foundations that will support the columns and abutments for the new 48th Street bridges over I-10. Crews also began installing the steel rebar footing of the first abutment for the new Broadway Road bridge over I-10, and the drilled-shaft foundations that will support the abutments to widen the Guadalupe Road bridge over I-10. Crews also began forming the foundation for new noise walls between Baseline and Elliot roads.

The BCC has released the first quarterly construction operations survey. You can access the survey [here](#). Your responses will help us determine how we can improve construction and public outreach activities. This survey is anonymous and voluntary; if you wish to participate, please complete it by Feb. 21, 2022.

**HEADS UP: The BCC will fully close westbound I-10 between State Route 143 and I-17 from 10 p.m. Friday, Jan. 28, to 4 a.m. Monday, Jan. 31, for pavement marking work, work-zone set up and pavement repairs.** This closure will also impact several on- and off-ramps. Visit the [project website](#) to view complete details and detour routes. Allow extra travel time, as delays are likely.

When westbound I-10 reopens early Monday, Jan. 31, drivers will see new lane striping between 36th Street and the Salt River bridges. In this area, travel lanes will be shifted from the outside of the freeway toward the middle so crews can create a

safe work zone to relocate utilities without impacting traffic. Drivers can expect this configuration to be in place for approximately three months.

Please remember that the speed limit in the 11-mile work zone is **55 mph**. Slow down and stay alert to protect yourself, other motorists and the crews working to improve I-10 for all of us.

*In January, workers continued installing the drilled-shaft foundations for the new 48th Street bridges over I-10.*

---

Throughout this three-year project, our goal is to minimize construction impacts as much as possible and provide timely and accurate information so you can plan ahead. Learn more about the project and engage with the project team as follows:

- **Bilingual Project Information Line:** 602.501.5505
- **Project Website:** [i10broadwaycurve.com](http://i10broadwaycurve.com)

- **Visit or Write:** 3157 E. Elwood St., Suite 100, Phoenix 85034. The Community Office is open during regular business hours, 8 a.m. to 5 p.m., Mondays – Fridays (except holidays).
- **Email:** [Info@i10BroadwayCurve.com](mailto:Info@i10BroadwayCurve.com)

We appreciate your patience during construction! #StayAheadofTheCurve and download our free mobile app, The Curve, on the [App Store](#) or [Google Play](#).
