

## November 2021

Earlier this fall, the Arizona Department of Transportation issued Notice to Proceed 2 to the Broadway Curve Constructors, allowing construction of the Interstate 10 Broadway Curve Improvement Project to begin in earnest. In addition to ongoing activities such as geotechnical investigation, potholing, surveying, asphalt removal, pavement inventory, glare screen removal and coordinating [utility relocations](#), the BCC has established the work zone throughout the [project area](#).

In the East Segment of the project, crews have started work on the shoulder of eastbound I-10 south of Baseline Road. As work to add new lanes on I-10 begins, clearing the shoulder of the freeway - sometimes referred to as "grubbing" - is the first noticeable construction activity. As grubbing is completed, crews start earthmoving and grading for the new travel lanes.

In this segment of the project, I-10 currently has three general purpose lanes and one high-occupancy vehicle (HOV) lane in both directions. When completed, it will have four general purpose lanes and one HOV lane in each direction.

While construction is underway, three lanes and the HOV lane on I-10 will remain open in each direction during peak travel times. Work that requires lane restrictions or closures, even for a short distance, will be scheduled at night or on weekends (except in emergency situations).

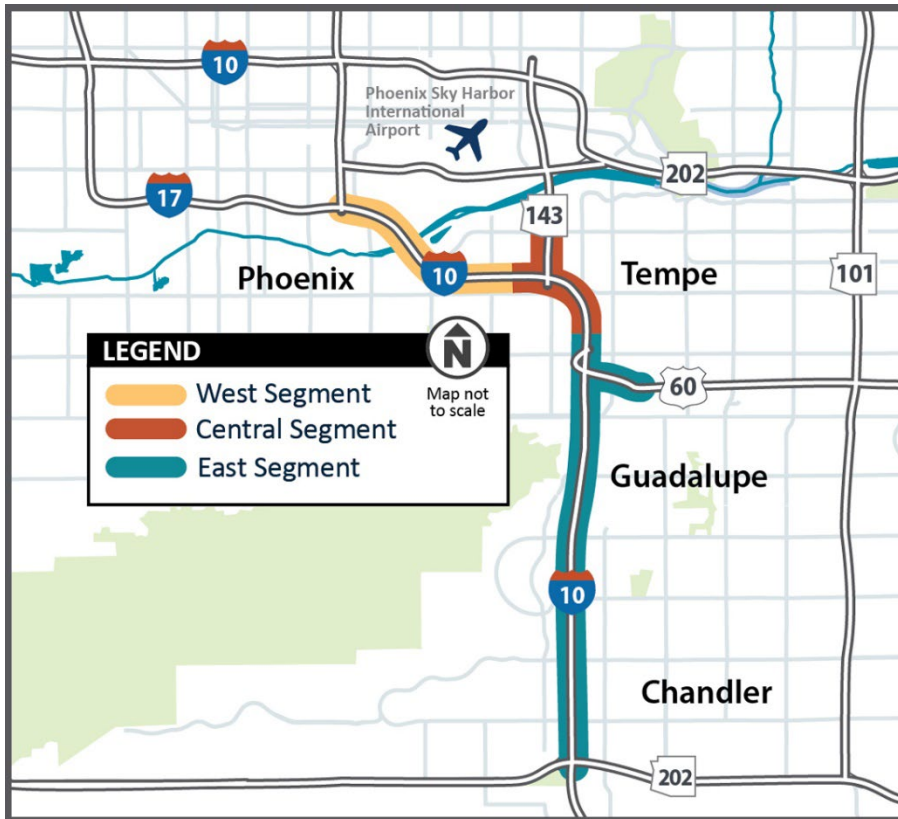

During ADOT's holiday moratorium period, which began earlier this month and continues until early January 2022, traffic restrictions and closures will be limited to emergency and repair work only. However, work that does not require highway restrictions or closures - such as grubbing, grading, plant salvage and glare-screen

removal – will continue during this time. Expect construction activity to increase after the start of 2022.

*Left: Crews are grading along the shoulder of I-10 in the project's East Segment in preparation for widening. [See photos of the latest work here.](#)*

*As illustrated below, the I-10 Broadway Curve Improvement Project has three segments where work will occur. Currently, grubbing and grading are underway in the East Segment.*

---

Throughout this three-year project, our goal is to minimize construction impacts as much as possible and provide timely and accurate information so you can plan ahead. Learn more about the project and engage with the project team as follows:

- **Bilingual Project Information Line:** 602.501.5505
- **Project Website:** [i10broadwaycurve.com](http://i10broadwaycurve.com)
- **Visit or Write:** 3157 E. Elwood St., Suite 100, Phoenix 85034. The Community Office is open during regular business hours, 8 a.m. to 5 p.m., Mondays – Fridays (except holidays).
- **Email:** [Info@i10BroadwayCurve.com](mailto:Info@i10BroadwayCurve.com)

We appreciate your patience during construction! #StayAheadofTheCurve and download our free mobile app, The Curve, on the [App Store](#) or [Google Play](#).
