

## June 2022

The construction zone is heating up this summer!

If you drive Interstate 10 near State Route 143, you've probably noticed significant progress on the I-10 Broadway Curve Improvement Project. New bridges over I-10 at 48th Street and Broadway Road are taking shape!

Between June 2nd and 6th, workers placed 36 girders for the 48th Street bridges over I-10. The largest girder was 157 feet long and weighed about 105 tons. [Check out photos here](#). With girders in place, crews will begin working on the bridge deck, which is the part you'll drive across. Workers plan to place 34 girders for the new Broadway Road bridge [in late June](#) and early July, and then begin work on that bridge deck.

Above: Crews place girders for the new 48th Street bridges over I-10. See more pictures of girders being placed and other construction activity [here](#).

## PLAN FOR SUMMER ROAD CLOSURES

Ongoing construction of the bridges at 48th Street and Broadway Road will require **full closures of the highway** nearly every weekend in June, July and August, except the July 4th holiday weekend when no closures are planned. With numerous summer closures coming up, we encourage you to stay ahead of the curve by visiting the project [website](#) or downloading our free mobile app, [The Curve](#). **The next full**

**closure of eastbound I-10 is scheduled for Friday June 24, through Monday June 27.**

### **Other Project Updates**

Crews continue to make progress in other areas of the 11-mile work zone on I-10, as well as at US 60 and SR 143. For example:

- Crews finished removing the north face of the Guadalupe Road bridge on June 19. Now they can begin widening the bridge to improve the Sun Circle Trail connection for bicyclists, pedestrians and equestrians.
- Workers are drilling the foundation for the new Collector-Distributor road bridge over Southern Avenue.
- Crews began forming the abutments for the new bridge that will connect westbound US 60 to westbound I-10. The abutments are the upright structures on each end of a bridge.
- Workers erected the beams for the new bridge that will connect southbound SR 143 to southbound 48th Street.

*Below: Workers are drilling the shaft for the Collector-Distributor Road bridge over Southern Avenue.*

*Above: Work to remove the north face of the Guadalupe Road bridge over I-10 wrapped up Sunday, June 19. The bridge is being widened to improve the Sun Circle Trail connection.*

### **New Visual Animation**

For an overview of project activities planned through this fall, check out the new project activities video on the [website](#). This video is available in English and Spanish.

*At left: The newest project video provides an overview of what you can expect in the work zone through fall 2022.*

**Thank you for your patience during construction. We appreciate it!**

## **Stay #AheadOfTheCurve**

Construction is scheduled to continue through late 2024. Throughout this project, our goal is to minimize impacts as much as possible and provide timely, accurate

information so you can plan ahead and get to where you need to be. Learn more about the project and engage with the project team in any of these ways:

- **Bilingual Project Information Line:** 602.501.5505
- **Project Website:** [i10BroadwayCurve.com](http://i10BroadwayCurve.com)
- **Visit or Write:** 3157 E. Elwood St., Suite 100, Phoenix 85034. The Community Office is open from 8 a.m. to 5 p.m., Monday through Friday, except holidays.
- **Email:** [Info@i10BroadwayCurve.com](mailto:Info@i10BroadwayCurve.com)
- **App:** Join more than 5,500 others who want to stay ahead of the curve by downloading our free mobile app, The Curve. You'll find it on the [App Store](#) or [Google Play](#).
