

## July 2022

This month marks the first full year of major construction activities on the Interstate 10 Broadway Curve Improvement Project. In July 2021, crews began removing the rubberized asphalt from I-10 and setting up the work zones. Also this month, phase one of the project was completed! You have likely seen some of the significant progress - and you can expect to see even more during phase two.

---

### How are we doing? Let us know by participating in the second quarter 2022 Construction Operations Survey

Please take a couple of minutes to let us know how we did between April 1 and June 30, 2022, by completing this [survey](#). Your responses will help us determine how we can improve construction activities and communication efforts moving forward. We appreciate your response by **Thursday, July 28, 2022**.

---

### **A New Record!**

On July 9, workers installed girders for the new Broadway Road bridge over westbound I-10. At 180 feet and approximately one-half-inch long, these 17 girders are now the longest precast concrete girders in Arizona.

---

### **PHASE TWO: WHAT TO EXPECT**

Phase two of four is now underway, and is anticipated to last through late 2023. Some of the work you can expect to see includes:

- Making roadway improvements.
- Coordinating utility relocation.
- Reconfiguring ramps.
- Constructing new walls.
- Widening the roadway.
- Building the Collector-Distributor (CD) roads.
- Widening bridges.
- Constructing new bridges, including the US 60 to I-10 bridges.

In addition:

- Crews reconfigured the I-10 westbound and eastbound travel lanes south of Baseline Road to support median construction at the Guadalupe Road bridge, as well as the future multiuse bridge over I-10 at the Western Canal.

- Workers will continue building the concrete block sound walls adjacent to I-10 between Elliot and Guadalupe roads.

---

**CD Roads:** Workers began forming the abutments for the new westbound CD road bridge over Southern Avenue. The abutments are the upright structures on each end of a bridge. Additional CD road work will occur in phase two. CD roads are being constructed along westbound I-10 from Baseline Road to 40th Street and along eastbound I-10 from 48th Street to Baseline Road. Learn more about the CD roads in the Frequently Asked Questions on the project website: <https://i10broadwaycurve.com/faq/>

**Decks on Deck:** Construction of the new 48th Street and Broadway Road bridges over I-10 will also continue during phase two. In June and early July, crews successfully set the girders for both bridges, and are now preparing them for their decks (the part you will drive across). Placement of the new 48th Street bridge decks is set to begin later this summer.

---

## Highway and Street Closures Continue

Work throughout the project area will require more closures and restrictions of I-10 and some local streets throughout the summer and into fall. We encourage you to stay #AheadOfTheCurve by visiting the project [website](#) or downloading our free

mobile app, [The Curve](#). Scroll down to see other ways you can contact the project team with questions or comments. ↓↓↓

**Open Again: Local 48th Street in Tempe!** Following paving and lane striping, crews reopened 48th Street between 14th Street and Medtronic Way on July 10. Bridge and new ramp construction in the area will continue through the summer.

## Stay #AheadOfTheCurve

Construction is scheduled to continue through late 2024. Throughout this project, our goal is to minimize impacts as much as possible and provide timely, accurate information so you can plan ahead and get to where you need to be. Learn more about the project and engage with the project team in any of these ways:

- **Bilingual Project Information Line:** 602.501.5505
- **Project Website:** [i10BroadwayCurve.com](http://i10BroadwayCurve.com)
- **Visit or Write:** 3157 E. Elwood St., Suite 100, Phoenix 85034. The Community Office is open from 8 a.m. to 5 p.m., Monday through Friday, except holidays.
- **Email:** [Info@i10BroadwayCurve.com](mailto:Info@i10BroadwayCurve.com)
- **App:** Join more than 5,500 others who want to stay ahead of the curve by downloading our free mobile app, The Curve. You'll find it on the [App Store](#) or [Google Play](#).

**We appreciate your patience as we work to improve traffic flow and reduce congestion on I-10.**
