## Eastbound Interstate 10 to close between US 60 and Loop 202 (Santan/South Mountain Freeway) (May 12-15) Drivers should expect to use detours and plan ahead

PHOENIX – The Arizona Department of Transportation is advising motorists to plan ahead and expect delays as eastbound Interstate 10 is closed between US 60 and Loop 202 (Santan/South Mountain Freeway) from 10 p.m. Friday, May 12, to 4 a.m. Monday, May 15. Crews with the <u>Interstate 10 Broadway Curve Improvement Project</u> will be performing bridge, barrier and overhead sign work.

While this closure is in place, the following ramps will be closed:

- The westbound US 60 ramp to eastbound I-10
- The HOV ramps in both directions that connect I-10 and US 60
- The eastbound I-10 on-ramps at Broadway, Baseline, Elliot, Warner and Ray roads
- The eastbound US 60 on- and off-ramps at Mill Avenue

**Eastbound I-10 Detour:** Use eastbound Loop 202 (Red Mountain Freeway) or eastbound US 60 to southbound Loop 101 (Price Freeway) to westbound Loop 202 (Santan Freeway) to access eastbound I-10 beyond the closure.

**West Valley drivers** can bypass the closure by traveling on Loop 202 (South Mountain Freeway). Motorists can access the Loop 202 (South Mountain Freeway) near I-10 and 59th Avenue and travel southeast to access I-10 eastbound again near Chandler Boulevard.

**Please note:** Schedules can quickly change because of weather and other unforeseen situations. For the most up-to-date information, we encourage you to download the Interstate 10 Broadway Curve Improvement Project's free mobile app, <u>The Curve</u> or visit the <u>Alerts section of the project website</u> before you travel.

###

The I-10 Broadway Curve Improvement Project is identified in the Maricopa Association of Governments' Regional Transportation Plan, funded by a half-cent sales tax approved by Maricopa County voters in 2004 through Proposition 400. MAG identified the need for this project to reduce travel times on I-10 during peak hours; improve airport access; support ridesharing and transit; and prepare the region for future growth projections.
