We're doing Splits! Watch for new lane configurations on Interstate 10 in the I-10 Broadway Curve Improvement Project area this fall

Drivers should plan for two new traffic configurations on I-10 starting later this month.

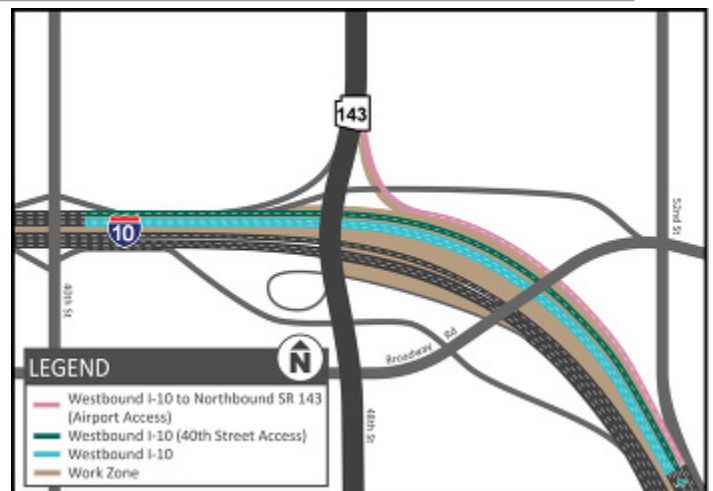

First, during the October 27-30 eastbound I-10 closure, crews will be working to shift the eastbound I-10 lanes between 48th Street and Broadway Road.

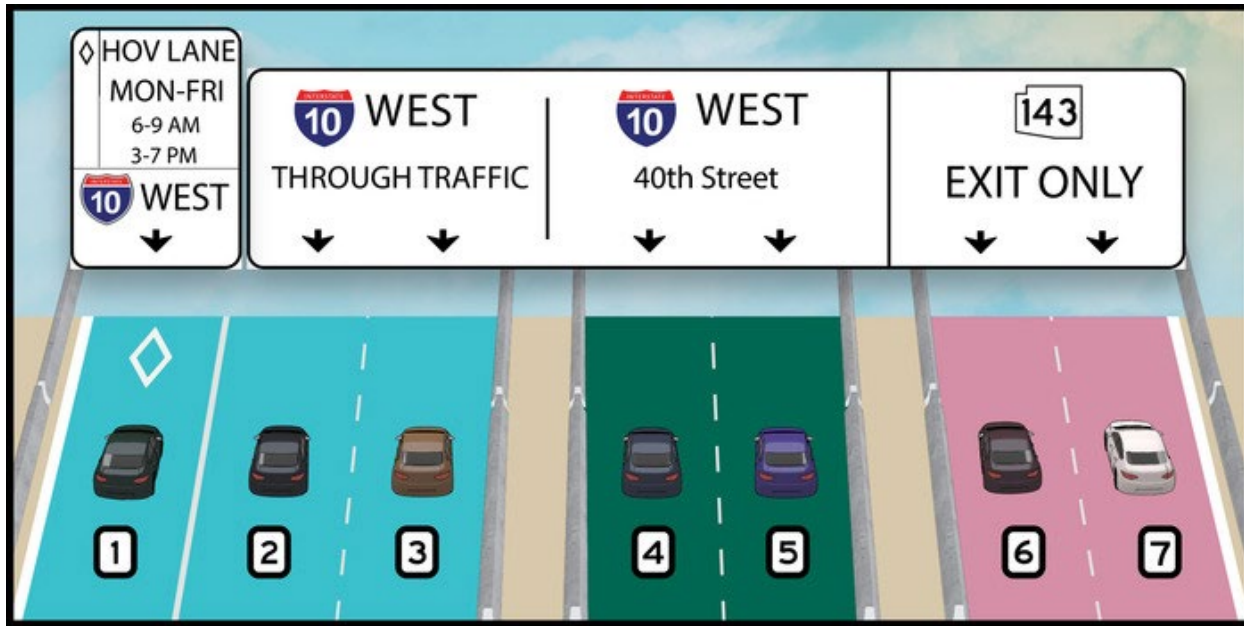

When the eastbound I-10 reopens on Monday, Oct. 30, drivers can expect the lanes between 48th Street and Broadway Road to be split with roadway barrier and work zone in between. Then, crews will put in a new westbound Interstate 10 lane configuration between Broadway Road and 48th Street in November.

Westbound I-10 will be closed between US 60 and 40th Street over the weekend of Nov. 17-20. When the freeway reopens on Nov. 20, westbound I-10 drivers can expect the existing lanes between Broadway Road and 48th Street will be split with roadway barrier and work zone in between. Drivers wishing to exit onto northbound State Route 143 should select the right two lanes. Drivers wishing to exit onto 40th Street should select the middle two lanes.

These temporary lane configurations will reduce the need for full freeway closures and will allow the Broadway Curve Constructors to complete constructing the new bridges that will eventually connect SR 143 to the interstate. Drivers can expect these lane configurations into 2024. The project is expected to open the final lane configuration later the same year.

I-10 Ramps at 32nd and 40th streets Reopen

Over the past year, ramp reconfigurations at 32nd and 40th streets have required long-term ramp closures.

In September, crews reopened the eastbound I-10 on-ramp at 32nd Street and the eastbound I-10 off-ramp at 40th Street.

Crews plan to begin the final two ramp reconfirmations of the eastbound I-10 off-ramp at 32nd Street and the westbound I-10 on-ramp at 32nd Street in the first half of 2024.

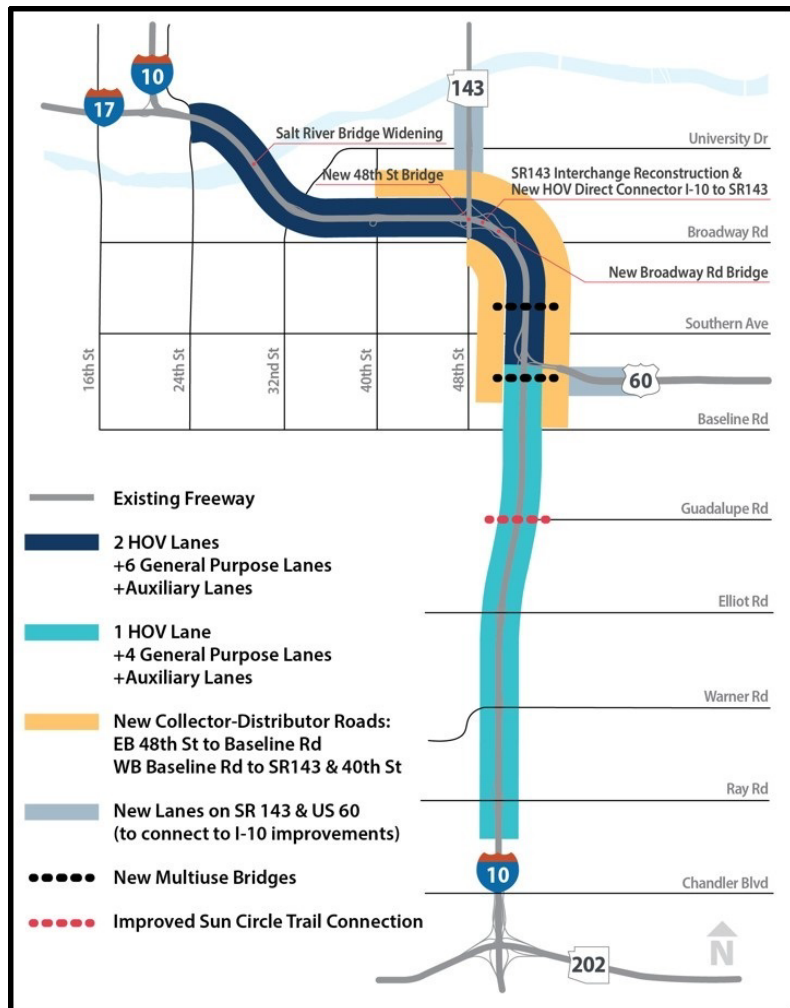

Fall Freeway Closures

The I-10 Broadway Curve Improvement Project is scheduled to have full freeway closures during the next two weekends:

- Eastbound I-10 is scheduled to close between US 60 and Loop 202 (Santan/South Mountain Freeway) from 10 p.m. Friday, Oct. 20, to 4 a.m. Monday, Oct. 23, for bridge work.
- Eastbound I-10 is scheduled to close between SR 51 and US 60 from 10 p.m. Friday, Oct. 27, to 4 a.m. Monday, Oct. 30, for a traffic shift.

Your Questions Answered

I have always wondered what the final project would look like in terms of a map. As I drive by and through the construction zone, I keep wanting to know what part of the final project is developing. What piece of the puzzle is this or that?

The [Improvements Map](#) provides a general outline of project improvements. However, the I-10 Broadway Curve Improvement Project is ADOT's largest urban freeway reconstruction project, so it is difficult to provide details of the 11-mile project on one map.

For this reason, our website also provides a [visual animation](#) of the completed project.

You can pause the video at any time to more closely review project details in that area.

You can find answers to other frequently asked questions at <https://i10broadwaycurve.com/faq/>.

#StayAheadOfTheCurve

Construction is scheduled to continue through late 2024. Throughout this project, our goal is to minimize impacts as much as possible and provide timely, accurate information so you can plan ahead and get to where you need to be. Learn more about the project and engage with the project team in any of these ways:

- **Bilingual Project Information Line:** 602.501.5505
- **Project Website:** [i10BroadwayCurve.com](https://i10broadwaycurve.com)
- **Visit or Write:** 3157 E. Elwood St., Suite 100, Phoenix 85034. The Community Office is open from 8 a.m. to 5 p.m., Monday through Friday, except holidays.
