## November 2024 Monthly Newsletter

### Eastbound Collector-Distributor Road Opens

Crews opened the eastbound Collector-Distributor (CD) road earlier this week. ADOT realizes that the CD road is a new experience for Phoenix area drivers and encourages drivers to slow down and pay attention to signage so that they can navigate safely and efficiently through the I-10 Broadway Curve project area. The Interstate 10 Broadway Curve Improvement Project is still an active construction work zone and the speed limit throughout the project area, including the CD road, is 55 mph.

To learn how the CD roads work and how to access common destinations using them, visit <https://i10broadwaycurve.com/findyourlane/>.

*The CD roads, shown in blue here, will reduce the need for vehicles to weave between lanes and will help keep traffic flowing on I-10.*

## Multiuse Bridge Update

In October, workers placed the last piece of truss of the multiuse bridge over I-10 at Alameda Drive. This last piece connects the bridge to the west-side landing. Then, crews were able to start constructing the bridge deck.

Crews also began placing the decorative elements on the multiuse bridge, which are designed and built to look like prickly pear cactus fruit. Once completed, the multiuse bridges over I-10 at Alameda Drive and the Western Canal will each have a total of ten cactus fruit pieces.

*In the photo above, a crane lifts the piece of truss that will connect the multiuse bridge over I-10 to the west-side landing at Alameda Drive.*

*A crane lifts the prickly pear cactus fruit, so workers can bolt it to the top of the bridge.*

## Your Questions Answered

**Question:** Why is the speed limit 55 mph in the construction zone?

**Answer:** Every weekday, more than 300,000 vehicles drive through the project area – sometimes just a few feet away from the workers building new bridges and travel lanes. Crashes in the work zone are most often attributed to speed and distraction. The 55 mph speed limit helps to ensure the workers stay safe and you arrive at your destination safely. For more information about work zone safety, visit <https://i10broadwaycurve.com/work-zone-safety/>

You can find answers to other frequently asked questions at <https://i10broadwaycurve.com/faq/>.

*Please drive 55 mph in the construction zone for your safety and the safety of the construction workers.*

## Community Office Holiday Hours

The I-10 Broadway Curve Improvement Project community office will be closed for the Thanksgiving holiday beginning at 12 p.m. on Wednesday, Nov. 27, and will reopen at 8 a.m. on Monday, Dec. 2. Have a safe holiday weekend!

Construction is scheduled to continue through early 2025. Throughout this project, our goal is to minimize impacts as much as possible and provide timely, accurate information so you can plan ahead and get to where you need to be. Learn more about the project and engage with the project team in any of these ways:

- **Bilingual Project Information Line:** 602.501.5505
- **Project Website:** [i10BroadwayCurve.com](http://i10BroadwayCurve.com)
- **Visit or Write:** 3157 E. Elwood Street, Suite 100, Phoenix, 85034. The Community Office is open from 8 a.m. to 5 p.m., Monday through Friday, except holidays.
- **Email:** [Info@i10BroadwayCurve.com](mailto:Info@i10BroadwayCurve.com)
- **App:** Join more than 23,000 others who want to stay ahead of the curve by downloading our free mobile app, The Curve. You'll find it on the [App Store](#) or [Google Play](#).
